PLASTIC CARDS FACTORY

WE PRODUCE PLASTIC CARDS

OUR COMPANY

We produce magnetic stripe cards, smart cards, proximity cards, loyalty cards, discount cards, gift cards, business cards, ID cards, key cards and much more.

We have produced over 40 million cards!

We received the title of Market Leader, Eurolider in years: 2011, 2010, 2009. We export over over 50% of our products to the European Union. Our products meet the highest national and international quality standards.

No matter how simple or complex your question or task is – let us know! We would be more than pleased to help you! You will be extremely satisfied with our highest quality and best prices!

We received the title of

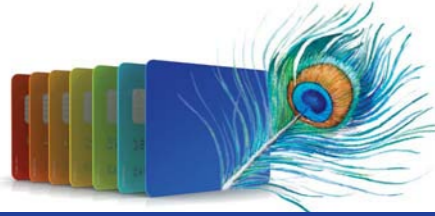

MARKET LEADER

EURO LEADER

We export over 50%
of our products
to the **European Union**

OUR PLASTIC CARDS:

Laminated plastic cards
(ISO 7810)

Memory and processor cards
(ISO 7816)

Magnetic stripe cards HICO, LOCO
(ISO 7811)

Proximity cards / contactless
(ISO 14443)

We offer cards made from biodegradable material called BIO-PCV.

When the card is no longer needed you can safely throw it away. Natural microorganisms (bacteria, fungi and algae) will easily assist in its decomposition. This material complies with all requirements of European Union directive UE 94/62 EC

We use modern production lines: Heidelberg and KBA machines.
We can produce over **3 million cards every month!** All production takes place in Poland.
